Optimising the Strip Geometry for very Fine Pitch Silicon Strip Sensors

Friday, 29 May 2009 19:30 (0 minutes)

Primary author: DRAGICEVIC, Marko (Institute of High Energy Physics of the Austrian Academy of Sciences (HEPHY))

Co-authors: Mr IRMLER, Christian (Institute of High Energy Physics of the Austrian Academy of Sciences (HEPHY)); Mr HRUBEC, Josef (Institute of High Energy Physics of the Austrian Academy of Sciences (HEPHY)); Mr KRAMMER, Manfred (Institute of High Energy Physics of the Austrian Academy of Sciences (HEPHY)); Mr FRIEDL, Markus (Institute of High Energy Physics of the Austrian Academy of Sciences (HEPHY)); Mr KVASNICKA, Peter (Faculty of Mathematics and Physics, Charles University); Mr HAENSEL, Stephan (Institute of High Energy Physics of the Austrian Academy of Sciences (HEPHY)); Mr BERGAUER, Thomas (Institute of High Energy Physics of the Austrian Academy of Sciences (HEPHY)); Mr KIESENHOFER, Wolfgang (Institute of High Energy Physics of the Austrian Academy of Sciences (HEPHY)); Mr DRASAL, Zbynek (Faculty of Mathematics and Physics, Charles University); Mr DOLEZAL, Zdenek (Faculty of Mathematics and Physics, Charles University)

Presenter: DRAGICEVIC, Marko (Institute of High Energy Physics of the Austrian Academy of Sciences (HEPHY))

Session Classification: Solid State Detectors - Poster Session

Track Classification: P6 - Solid State Detectors
