Type: Poster

Simulation of Electrical Parameters of New Design of SLHC Silicon Sensors for Large Radii

Friday, 29 May 2009 19:30 (0 minutes)

For the collaboration

Central Europe Consortium for CMS tracker upgrade

Primary author: MILITARU, Otilia (Université Catholique de Louvain)

Co-authors: SRIVASTAVA, Ajay (Institut für Experimentalphysik, Universität Hamburg, Germany); DIERLAMM, Alexander (Institut für Experimentelle Kernphysik, Universität Karlsruhe (TH), Germany); LOPEZ VIRTO, Amparo (Instituto de Física de Cantabria (UC-CSIC), Santander, Spain); MUSSGILLER, Andreas (Deutsches Elektronen-Synchrotron DESY, Germany); TOMASZEWSKI, Daniel (Institute of Electron Technology, Warsaw, Poland); MOYA, David (Instituto de Física de Cantabria (UC-CSIC), Santander, Spain); ECKSTEIN, Doris (Institut für Experimentalphysik, Universität Hamburg, Germany); GAUBAS, E. (Institute of Materials Science and Applied Research, Vilnius University, Lithuania); FRETWURST, Eckhart (Institut für Experimentalphysik, Universität Hamburg, Germany); CORTINA GIL, Eduardo (Université catholique de Louvain, Belgium); ZASINAS, Ernestas (Institute of Materials Science and Applied Research, Vilnius University, Lithuania); GONZALEZ, Francisco J. (Instituto de Física de Cantabria (UC-CSIC), Santander, Spain); HARTMANN, Frank (Institut für Experimentelle Kernphysik, Universität Karlsruhe (TH), Germany); STEINBRÜCK, Georg (Institut für Experimentalphysik, Universität Hamburg, Germany); SIMONIS, Hans-Jürgen (Institut für Experimentelle Kernphysik, Universität Karlsruhe (TH), Germany); VILA, Iván (Instituto de Física de Cantabria (UC-CSIC), Santander, Spain); HRUBEC, J. (HEPHY, Vienna, Austria); STORASTA, J. (Institute of Materials Science and Applied Research, Vilnius University, Lithuania); VAITKUS, J. (Institute of Materials Science and Applied Research, Vilnius University, Lithuania); MARCZEWSKI, Jacek (Institute of Electron Technology, Warsaw, Poland); SAMMET, Jan (Aachen University, Germany); ERFLE, Joachim (Institut für Experimentelle Kernphysik, Universität Karlsruhe (TH), Germany); SCHWANDT, Jörn (Institut für Experimentalphysik, Universität Hamburg, Germany); HOFFMANN, Karl-Heinz (Institut für Experimentelle Kernphysik, Universität Karlsruhe (TH), Germany); KLEIN, Katja (Aachen University, Germany); BORRAS, Kerstin (Deutsches Elektronen-Synchrotron DESY, Germany); KUCHARSKI, Krzysztof (Institute of Electron Technology, Warsaw, Poland); FELD, Lutz (Aachen University, Germany); KRAMMER, Manfred (HEPHY, Vienna, Austria); FERNANDEZ, Marcos (Instituto de Física de Cantabria (UC-CSIC), Santander, Spain); DRAGICEVIC, Marko (HEPHY, Vienna, Austria); FRIEDL, Markus (HEPHY, Vienna, Austria); BERGHOLZ, Matthias (Deutsches Elektronen-Synchrotron DESY, Germany); GRODNER, Mirosław (Institute of Electron Technology, Warsaw, Poland); BLÜM, Peter (Institut für Experimentelle Kernphysik, Universität Karlsruhe (TH), Germany); SCHLEPER, Peter (Institut für Experimentalphysik, Universität Hamburg, Germany); GRABIEC, Piotr (Institute of Electron Technology, Warsaw, Poland); JARAMILLO, Richard (Instituto de Física de Cantabria (UC-CSIC), Santander, Spain); KLANER, Robert (Institut für Experimentalphysik, Universität Hamburg, Germany); HÄNSEL, S. (HEPHY, Vienna, Austria); SAKALAUSKAS, S. (Institute of Materials Science and Applied Research, Vilnius University, Lithuania); RODRIGO, Teresa (Instituto de Física de Cantabria (UC-CSIC), Santander, Spain); BERGAUER, Thomas

(HEPHY, Vienna, Austria); MÜLLER, Thomas (Institut für Experimentelle Kernphysik, Universität Karlsruhe (TH), Germany); KAZUKAUSKAS, V. (Institute of Materials Science and Applied Research, Vilnius University, Lithuania); LEMAITRE, Vincent (Université catholique de Louvain, Belgium); KHOMENKOV, Volodymyr (Institut für Experimentalphysik, Universität Hamburg, Germany); KARPINSKI, Waclaw (Aachen University, Germany); DE BOER, Wim (Institut für Experimentelle Kernphysik, Universität Karlsruhe (TH), Germany); LANGE, Wolfgang (Deutsches Elektronen-Synchrotron DESY, Germany)

Presenter: MILITARU, Otilia (Université Catholique de Louvain)

Session Classification: Solid State Detectors - Poster Session

Track Classification: P6 - Solid State Detectors
