

Contribution ID: 169

Type: Poster

Development and Experimental Characterization of Prototypes for Low Material Budget Support Structure and Cooling of Silicon Pixel Detectors, Based on Microchannel Technology

Friday, 29 May 2009 19:30 (0 minutes)

Primary author: BOSI, Filippo (INFN Pisa)

Co-author: Mr MASSA, Maurizio (INFN Pisa)

Presenter: BOSI, Filippo (INFN Pisa)

Session Classification: Solid State Detectors - Poster Session

Track Classification: P6 - Solid State Detectors
