

Low Emittance Rings 2014 Workshop

Thursday, 18 September 2014

Experiments with low emittance lattices (LERD) - Aula B. Touschek, Bldg 36 (08:30 - 11:00)

-Conveners: Susanna Guiducci

time	[id] title	presenter
08:30	[28] Review of experiments with low emittance lattices	SAFRANEK, James
09:00	[29] Vertical Emittance at the Quantum Limit	DOWD, Rohan
09:30	[30] Beam lifetime and IBS issues at NSLS2 and first commissioning results	PODOBEDOV, Boris
09:50	[31] Low emittance studies at 3 GeV at PETRA III	KEIL, Joachim
10:10	[46] Measuring sextupole and octupole resonance driving terms using turn-by-turn BPM data	FRANCHI, Andrea
10:30	[49] First Collective Effects Measurements in NSLS-II	BLEDNYKH, Alexei
