

4th Conference on PET/MR and SPECT/MR

Tuesday, 19 May 2015

Session 5 - Preclinical MR-PET and MR-SPECT: systems and applications - Room Maria Luisa (08:30 - 10:30)

-Conveners: Christer Hallding

time	[id] title	presenter
08:30	[46] Evaluation of PET Performance and MR Compatibility of a Preclinical PET/MR Insert with Digital Silicon Photomultiplier Technology	HALLEN, Patrick
08:50	[28] First Results from a High-Resolution Small Animal PET Insert for PET/MRI Imaging	GOERTZEN, Andrew
09:10	[16] The SAFIR Project: An Innovative High Rate Preclinical PET/MR Detector Towards Dynamic Multimodal Imaging	LUSTERMANN, Werner
09:30	[25] Small Animal PET Based on 16x16 TSV-MPPCs and Monolithic Crystals	GONZALEZ, Antonio
09:50	[21] Authentically Radiolabelled Mn(II) Complexes as Bimodal PET/MR Tracers	COENEN, Heinz H.
10:10	[15] Lymph Node Imaging Using Novel Simultaneous PET/MRI and Dual-Modality Imaging Agent	KO, Guen Bae
