

Investigating Strangeness: from Accelerators to Compact Stellar Objects

Wednesday, 14 May 2014

Part 2 - Aula Conversi (11:30 - 13:00)

-Conveners: Avraham Gal

time	[id] title	presenter
11:30	[14] Can very compact and very massive neutron stars both exist?	DRAGO, Alessandro
12:00	[15] Kaonic atoms investigation by the SIDDHARTA experiment	ILIESCU, Mihail Antoniu
12:30	[16] Y^* resonances investigation originated in K-light nuclei absorption by AMADEUS	Mr PISCICCHIA, Kristian
