

ET-ILIAS_GWA joint meeting

Monday, 24 November 2008 - Wednesday, 26 November 2008

EGO/Virgo site

Scientific Programme

In this meeting the ILIAS-GWA heritage will be transmitted to the ET project. ILIAS sessions are overlapped to the ET working package sessions to underline this passage.

Monday 24/11/2008:

Joint STREGA (JR3) - ET WP2 session

Thermal noise issues and suspension 3rd generation design will be discussed

Conveners: M.Bassan, F.Ricci

Tuesday 25/11/2008:

Joint ET - ILIAS WP3 session

Coordination of the European activities toward a 3rd generation observatory

Conveners: M.Punturo, H.Lueck

ET WP3 session

Topology for 3rd generation GW observatories

Convener: A.Freise

ILIAS WP1 session

Commissioning of current GW detector

Conveners: G.Losurdo, H.Grote

ET WP1 session

3rd generation observatory infrastructures

Convener: J. van den Brand

ET WP4 session

Science case and astrophysics issues for 3rd generation observatory

Convener: B.S.Sathyaprakash

Wednesday 26/11/2008:

ILIAS WP2 workshop

Supernovae, neutrinos and gravitational waves

Conveners: G.Guidi, S.Heng

Joint STREGA (JR3) - ET WP2

Thermal noise issues and suspension 3rd generation design

Joint ET - ILIAS WP3

Coordination of the European activities toward a 3rd generation observatory

ET WP3

Topology for 3rd generation GW observatories

ILIAS WP1

Commissioning of current GW detectors

ET WP1

3rd generation observatory infrastructures

ET WP4

Science case and astrophysics issues for 3rd generation observatories

ILIAS WP2 workshop

Supernovae, neutrinos and gravitational waves
