

Alice ITS L6,5 Integration

M. Benettoni, M. Turcato, INFN Padova

- Ongoing design of integration tools and procedures:
 - Jig for ruby pads positioning and gluing on wheels
 - Jig for staves guiding during insertion/extraction
 - Staves position measurement (non contact)
 - Jig and procedure for half layers handling and coupling
 - In May talks with Corrado/Vito and Corrado/Matteo
- 2014:
 - Finalize jigs (prototypes) design..., order material
 - start construction of gluing jig and stave handling jig
 - build Mock-up of wheels for trials
- 2015:
 - Test prototypes and iterate design
 - Progress design of wheels vs services
 - Test gluing jig prototype and iterate design
 - Test handling jig prototype and iterate design
 - Finalize procedures for handling, construction, measuring, qualification
