WP2 News

i'm a dad

WP2 Task

WP2 development state

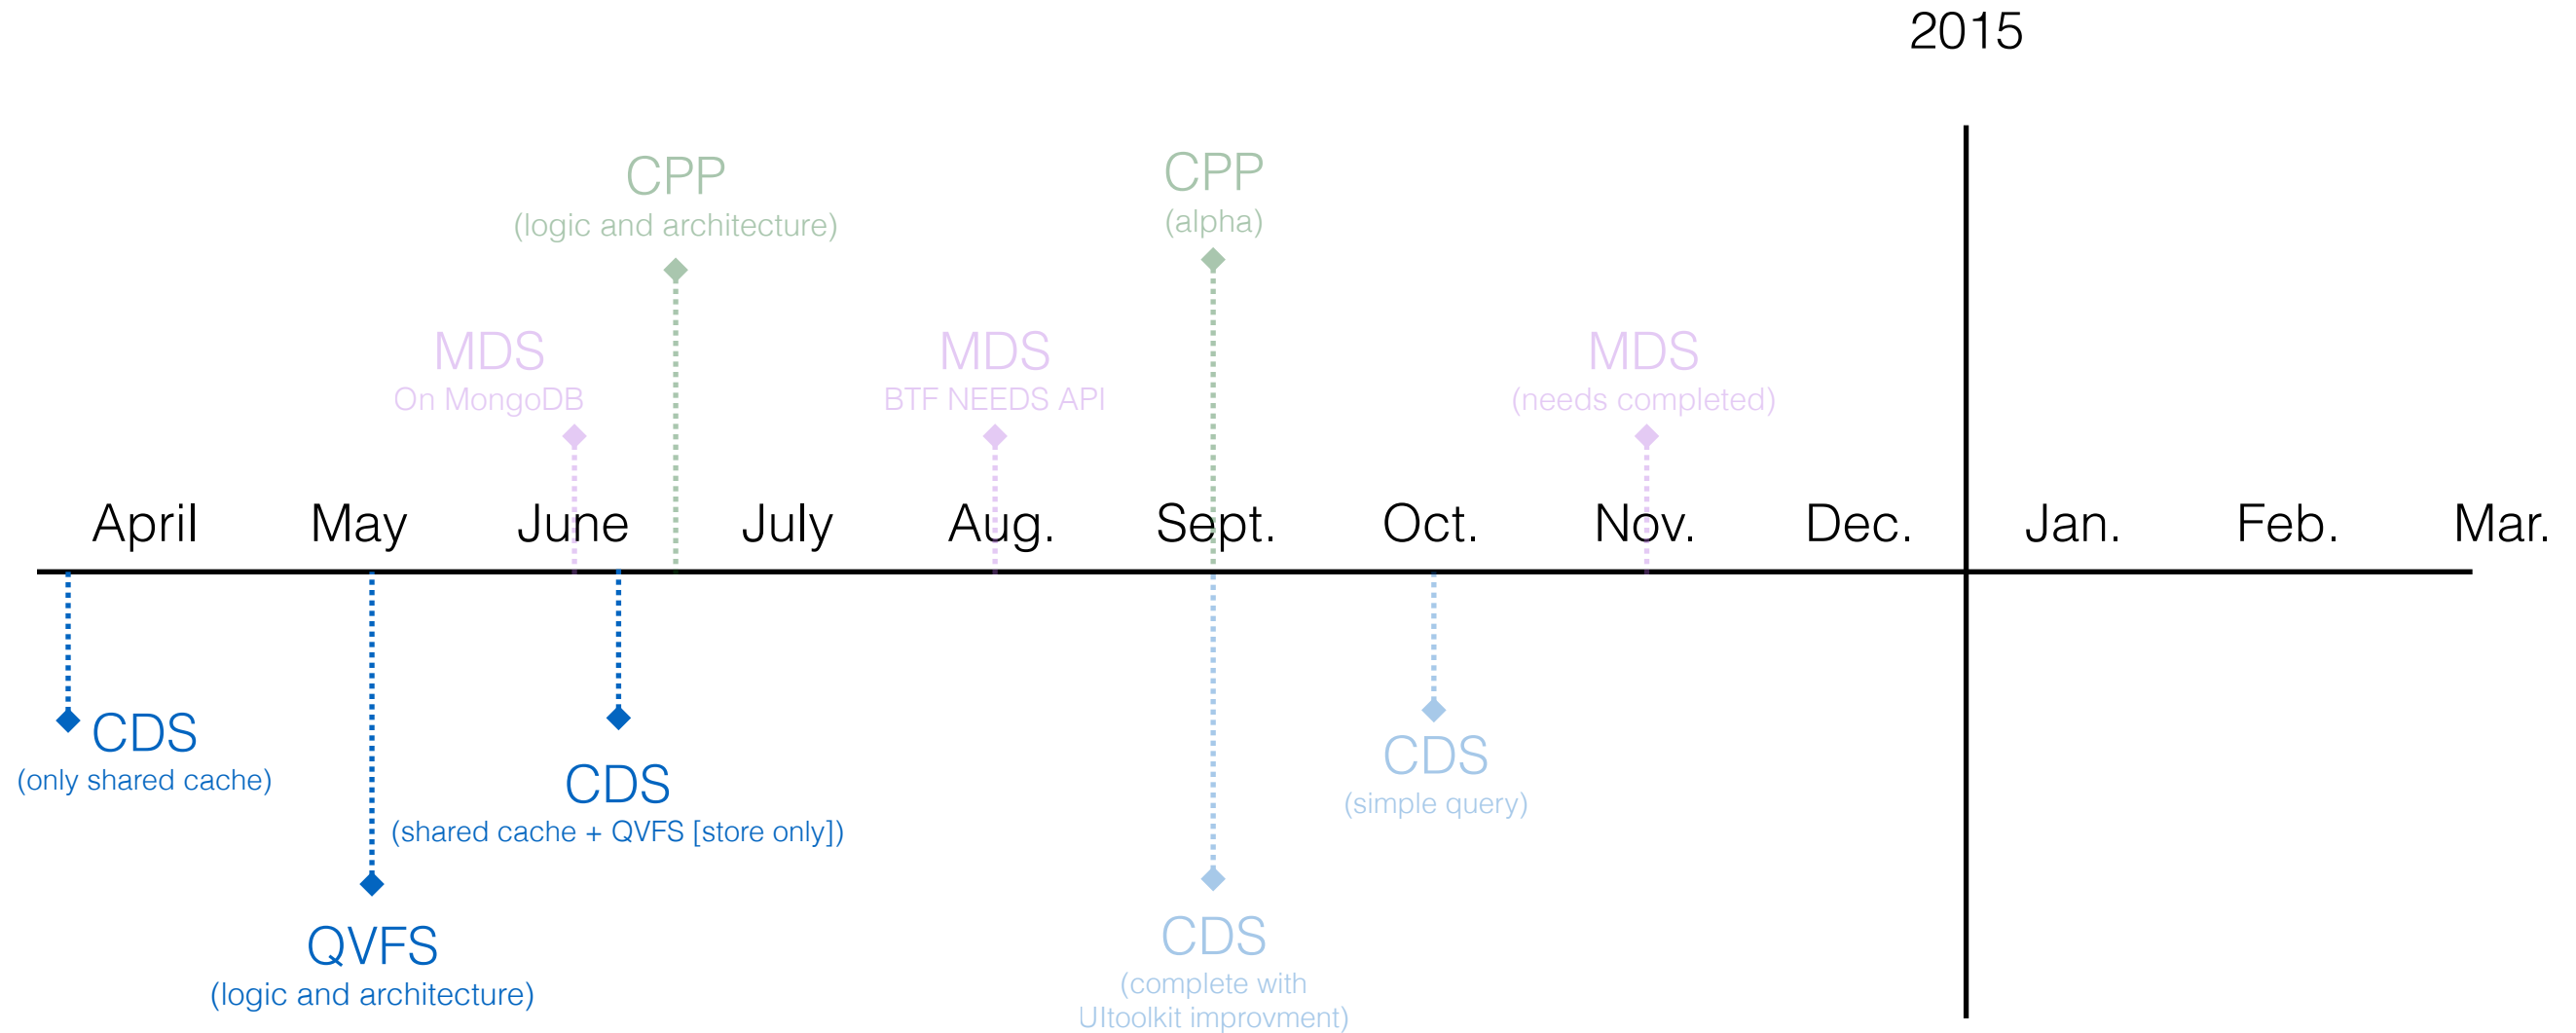

- Index Driver (VFAT) (MongoDB)
- Storage Driver (Stage Data Only) (Posix)
- Cache Driver (CouchBase implementation)

WP2 Task

WP2 development state

- MDS partially write on mongodb (some data is needed for pack indicization)

WP2 timeline features

further features, test, documentation

CDS - Chaos Data Proxy

MDS - Metadata Server in JAVA

QVFS - Querable Virtual File System

CPP - Chaos Push Proxy

WP2 Task

CHANGE to WP2 development flow

- We need a more control unit configuration and startup behavior
- We need more MDS API e more powerful MDS informational system
 - group;
 - configuration;
 - management of control unit startup sequence
