9:00 AM

Morning session

Session | **Location:** The Galileo Galilei Institute for Theoretical Physics (GGI), Arcetri, Florence

9:00 - 9:40 AM **Electric fields and quantum wormholes**

Speaker

Nabil Iqbal

9:40 - 10:20 AM **Transport in holographic systems with momentum dissipation**

Speaker

Richard Davison

10:20 - 10:50 AM **Coffee break**

10:50 - 11:20 AM **Disorder in AdS/CFT**

Speaker

Leopoldo Pando Zayas

11:20 - 11:50 AM **Holographic Charged Impurities**

Speaker

Daniel Arean

11:50 AM - 12:20 PM

Electromagnetic properties of charged viscous fluids: from string theory to electrons

Speaker

Davide Forcella

12:20 - 12:50 PM **Holographic Conductivity: Insulators, Supersolids, and scaling**

Speaker

Elias Kiritsis

12:50 PM
