

Gauge/Gravity Duality 2015

Thursday, April 16, 2015

Afternoon session (2:20 PM - 6:10 PM)

time	[id] title	presenter
2:20 PM	[30] Simulations of BH Collisions in AdS5	ROMATSCHKE, Paul
3:00 PM	[31] Equilibration rates in a strongly coupled nonconformal quark-gluon plasma	BUHEL, Alex
3:40 PM	[4] A more realistic thermalization scenario in holography	SCHALM, Koenraad
4:10 PM	Coffee break	
4:40 PM	[32] Holographic Kondo defects and universality in holographic superconductors with broken translation symmetry	ERDMENGER, Johanna
5:10 PM	[34] Holographic spin fluctuation and competition of two orders	SIN, Sang-Jin
5:40 PM	[33] A Monotonicity Theorem for Two-dimensional Boundaries and Defects	O'BANNON, Andrew
