

# Gauge/Gravity Duality 2015

## Friday, April 17, 2015

### Morning session (9:00 AM - 12:50 PM)

time	[id] title	presenter
9:00 AM	[50] Effective actions for fluids from holography	DE BOER, Jan
9:40 AM	[37] Entwinement and the emergence of spacetime	BALASUBRAMANIAN, Vijay
10:20 AM	Coffee break	
10:50 AM	[38] Torsional Newton-Cartan geometry in Lifshitz holography and non-relativistic field theories	OBERS, Niels
11:20 AM	[39] How far can we push the AdS/Ricci-flat correspondence?	CALDARELLI, Marco
11:50 AM	[45] AdS black hole thermodynamics with scalar hair	PAPADIMITRIOU, Ioannis
12:20 PM	[47] From strange metals to black holes and back: effective theories of thermoelectric transport	GOUTERAUX, Blaise
