Session Program

Nov 18 – 19, 2014

Working Group on Radiative Corrections and Generators for Low Energy Hadronic Cross Section and Luminosity

Hadronic VP, g-2 and Delta alpha I

LNF

Tue, November 18

11:00 AM

Hadronic VP, g-2 and Delta alpha I

Session | **Location:** LNF

11:00 – 11:30 AM

The role of experimental data as input information for precise hadronic calculations: muon g-2, rare pi0 decays and mixing parameters

Speaker
Dr Pere Masujan

11:30 AM
