

# UCANS V

## 5th International Meeting of Union for Compact Accelerator - Driven Neutron Sources

### Thursday, 14 May 2015

#### Neutron Source Facilities - Aula "Villi" (09:00 - 14:40)

-Conveners: Michihiro Furusaka

time	[id] title	presenter
09:00	[50] The SPES project at LNL	PRETE, Gianfranco
09:20	[60] The Helmholtz Neutron Strategy: Towards a High Brilliance Neutron Source	BRÜCKEL, Thomas
09:50	[49] ESS-BILBAO: On going activities	FERNANDO, Sordo
10:10	[65] NEPIR: A neutron irradiation facility at the SPES high intensity 70 MeV Cyclotron of LNL	WYSS, Jeffery
10:30	Coffee Break	
11:00	[36] Multipurpose applications of the accelerator-based neutron source GENEPI2	VILLA, Francesca
11:20	[23] Development of a compact, intense and ns-pulsed neutron source for the application in fast neutron radiography and tomography	BROMBERGER, Benjamin
11:40	[17] The LENS facility in 2015	BAXTER, David
12:00	[32] Intense Resonance Neutron Source at JINR: Status and Perspectives	SHVETSOV, Valery
12:20	[10] RIKEN accelerator-driven compact neutron source RANS	OTAKE, Yoshie
12:40	[37] Recent activity of Japan Collaboration of Accelerator driven Neutron Sources (JCANS)	KIYANAGI, Yoshiaki
13:00	[40] Current Status of the Hokkaido University Neutron Source (HUNS)	FURUSAKA, Michihiro
13:20	Lunch	
14:20	[28] LNL irradiation facilities for radiation damage studies	MATTIAZZO, Serena
