

Laboratori Nazionali del Gran Sasso

XLII SC
Stefano Ragazzi

From XLI

All experiments are required to appoint:

- GLIMOS: Group Leader In Matter of Safety
- RAE: Responsabile Ambientale di Esperimento

The same person can be appointed with both roles

GLIMOS/RAE

- On site
- Involved in decisions concerning installation

PRA for all procedures must be produced by GLIMOS
(not LNGS-SPP)

ERIC

European Research Infrastructure Consortium

- Progress in negotiations (*AM for INFN Executive board*)
- In the meantime:
 - make LNGS more attractive by targeted investments in infrastructures
 - Dedicated funds
 - 5 M€ (FY 2013)
 - 4 M€ (*FY 2014 proposed*)

Infrastructures

A sample of proposals

- LUNA-MV completion + ^{12}C beam upgrade
 - recommended by INFN-MAC
- New UPS system for UG lab
- UG area equipped with active veto (*“artificial depth”*)
- Crystal growth facility (integrated with sensor facility?)
- Cryo isotopic separator for gases (*guess which*)
- And more...

LNGS users and lovers are invited to contribute

The Times They Are a Changin'

- Icarus⁽¹⁾ passing by Xenon's superior counting-room with a view⁽²⁾
 1. *Icarus first container entered Hall-B on Oct. 10, 2 a.m., and left Hall-B with first Icarus TPC on Nov. 10, 11 p.m. Coordinator: Chiara Zarra*
 2. *NOT Elena's house*
