

Miniworkshop su Acceleratori

Tuesday, 17 February 2015

Morning Session - "Ceolin" Meeting Room (09:15 - 13:30)

time	[id] title	presenter
09:15	[11] LNF accelerators evolutions and upgrades	GHIGO, Andrea
09:40	[18] INFN Contribution to Neutral Beam Injector	CAVENAGO, Marco
10:05	[17] Upgrading of the LNS superconducting cyclotron for the production of 1 to 10 kW light ion beams	CALABRETTA, Luciano
10:30	Coffee Break & Poster	
11:00	[8] Plasma acceleration: status and perspectives	Prof. MALKA, Victor
11:40	[9] Plasma acceleration research at SPARC-LAB	FERRARIO, Massimo
12:10	[12] Where we are with advancing the marriage between electron and photon beams: the way ahead	SERAFINI, Luca
12:30	[19] Laser-plasma acceleration of electrons for medical applications	GIZZI, Leonida Antonio
12:50	[13] Laser Ion Acceleration Experiences in Italy	GIOVE, Dario Augusto
