# Welcome to the Research and Innovation Participant Portal

### About the Participant Portal:

The Participant Portal is your entry point for the electronic administration of EU-funded research and innovation projects. It hosts services for managing proposals and projects throughout their lifecycle.

The Participant Portal supports activities funded mainly by the following EU programmes:

- **7th Framework Programme for Research and Technological Development (FP7)**
- **Competiveness and Innovation Framework Programme (CIP)**

### Using the Participant Portal:

**As a guest user**, browse the public pages to:

- search for funding opportunities
- download guidance and legal documents
- search for the participant identification code (PIC) of an organisation
- contact the FP7 support services and browse the FAQ for guidance on the Participant Portal tools

**As a registered user**, benefit from personalised services for proposal submission, negotiation, and project management.

### Funding Opportunities

**FUNDING GUIDE**

Find the European Union funding opportunities and search for new or closed calls, grouped by the following programmes:

- **Horizon 2020 - EU research funding from 2014**
- **Seventh Framework Programme (FP7)**
- **Competitiveness and Innovation Framework Programme (CIP)**
- **other research and innovation programmes**

### Horizon 2020

Horizon 2020 is the new EU funding programme for research and innovation running from 2014 to 2020 with a €70 billion budget. The first calls for proposals for Horizon 2020 are envisaged for **December 2013**. Its simplified rules and submission and grant management tools should facilitate participants' tasks. For practical guidance, see the [H2020 Funding Guide](#).

H2020 supports [SMEs](#) with a new **instrument** that runs throughout various funded research and innovation fields, so it should be easy for SMEs to find opportunities in many calls.

H2020 also aims to enhance EU [international research cooperation](#) so there are more opportunities for Third Country participation.

Having built H2020 around the main societal challenges like an ageing population, food security, energy efficiency, the EU attaches high importance to embed [socio-economic sciences and humanities](#) into the work programme.

Another important priority of the Commission is to ensure [gender](#) is embedded in the design of Horizon 2020 project proposals.

### FP7 and CIP – previous programmes

FP7 and CIP are previous instruments to fund research and innovation activities in Europe for the period 2007 to 2013. You can view closed calls information of these programmes.

### COSME

Programme for the Competitiveness of Enterprises and SMEs (COSME) will run from 2014 to 2020, with a planned budget of €2.3bn. It will facilitate SME access to finance, create supportive environment for business creation, help small businesses operate outside their home countries and improve their access to markets.

### Other calls

This page lists additional research activities, initiatives executed by several Member States or joint programmes, co-funded calls, thematic opportunities, and intergovernmental actions.

### Call updates

The page displays the latest updates to the calls, like change of deadlines.

### Search

The call search tool has several filtering options to help you select funding opportunities that are most relevant to your activities.

### WATER INNOVATION: BOOSTING ITS VALUE FOR EUROPE

H2020-WATER-2014/2015

**Publication date:** 2013-12-11 **Deadline Date:** 2014-03-18 +17:00:00 (Brussels local time)

**Stage 2:** 2014-05-22 +17:00:00 (Brussels local time)

**Budget:** €65,000,000 **Specific programme:** Societal challenges

**Status:** Open **OJ reference:** OJ C2020 11 of December 2013

#### Call summary

Water is an invaluable resource for human health, food security, sustainable development and the environment, and is an economic sector of growing importance for Europe. However, water resources are constantly under pressure from climate change, urbanisation, pollution, overexploitation of freshwater resources and increasing competition between various user groups, and the improvement of the state of water resources will trigger substantial economic benefits. [More...](#)

## HORIZON 2020 CALLS

FUNDING GUIDE

Call: [Water innovation: boosting its value for Europe](#)

### Topic: *Bridging the gap from innovative water solutions to market replication*

**WATER 1 – 2014/2015**

Topic Description

Topic Conditions

Call Documents

Submission Service

**Specific challenge:** One of the main factors hampering the market uptake of innovative solutions in the field of water is the lack of real scale demonstration of their long term viability. In addition, highly promising and advanced eco-innovative water technologies, processes, products and services often do not reach the market due to pre-commercialisation challenges and the residual risk linked to scaling-up. The first Strategic Implementation Plan of the European Innovation Partnership (EIP) on Water has identified as priority areas: water reuse and recycling; water and wastewater treatment, including recovery of resources; water and energy integration; flood and drought risk management; and the role of ecosystem services in the provision of water related services.

**Scope:** Actions should address one or more of the following:

- demonstration/pilot activities of new or improved innovative water solutions (technologies, processes, products and/or services) in a real environment
- the first application and market replication of near commercial water solutions.

They should focus on the priorities identified in the first Strategic Implementation Plan of the European Innovation Partnership (EIP) on Water, and/or helping process industries become less water dependant while ensuring efficient management of other resources (e.g. raw materials and energy), and/or exploiting untapped potential of ICT by developing and deploying advanced ICT solutions for water resources management in agriculture and urban areas.

**Expected impact:** Wide and fast deployment of eco-innovation in the water sector in line with the priority areas of the EIP 'Water'. Support to the objectives of the Sustainable Process Industries Public-private Partnership (SPIRE PPP), in particular helping process industries to view water as a highly valuable asset rather than a consumable. Market penetration, long-term application and sustained use of successful solutions by various end-users, and creation of new market opportunities both inside and outside Europe. Increased resource efficiency and environmental performance of the water sector, through synergies between public water authorities, water utilities, various economic sectors, big companies, SMEs and research organisations.

**Type of action:** Innovation actions (70%)

## TOPICS FOR GENDER

FUNDING GUIDE

An in-depth understanding of men and women's needs, behaviours and attitudes contributes to improve the scientific quality and societal relevance of the produced knowledge, technology and/or innovation. It also leads to produce goods and services better suited to potential markets.

Applicants are encouraged to develop a gender dimension in their projects whenever relevant. A topic is considered gender relevant when it concerns individuals of groups of persons and/or when its findings may affect individuals or groups.

**Topic:** [MG 6 – 2014: Integrated approach towards safety of Vulnerable Road Users](#)

Powered-two-wheelers and non-motorised transport, present a range of economic, environmental and societal opportunities. They are very well placed to address Europe's challenges of climate change and congestion. At the same time, pedestrians, cyclists, motorbike riders also represent a serious safety concern. A gender-specific, pan-European approach is recommended in order to take into account the gender/cultural differences [More...](#)

Call title: Mobility for Growth Status: **Open**

Call identifier: [H2020-MG-2014/2015](#) Deadline: **2014-03-18**

**Topic:** [BG 15 - 2014: Further consolidating the ERA in marine sciences](#)

To achieve a globally competitive European Research Area to play a leading role in addressing grand challenges, such as the ones associated to our seas and oceans, national research systems must be more open to each other and to the world, more inter-connected and more inter-operable. (...) The action should also propose measures to facilitate gender equality and gender mainstreaming in research. [More...](#)

Call title: Blue Growth: Unlocking the potential of the oceans Status: **Open**

Call identifier: [H2020-BG-2014/2015](#) Deadline: **2014-09-10**

**Topic:** [SFS 10 - 2015: Diet and mental health](#)

Impulsivity and compulsivity disorders lead to individuals no longer being able to integrate into their social environment. As such, these disorders are a growing threat to individuals, families and societies as a whole. Antisocial behaviour can have an important negative impact, e.g. in schools and at the workplace. (...) The ethical and gender dimension of these behavioural disorders shall be taken into account. [More...](#)
