Quantum mechanics at test - AULA A edificio Garbasso (12:10 - 14:00)

-Convenors: Tommaso Calarco

time	[id] title	presenter
12:10	[36] Derivation from principles of Quantum Theory and Quantum Field Theory: a quantum cellular automata theory for quantum fields.	D'ARIANO, Giacomo
12:40	[34] Testing the limits of quantum mechanics (& other) using micro-magnetomechanical systems	VINANTE, Andrea
13:00	[37] Quantum foundations: experimental test of the collapse models and of the Pauli Exclusion principle	Dr CURCEANU, Catalina Oana
