

Coherent XUV generation by an IR parametric source: a step towards attosecond pulses at 100 eV

giovedì 28 maggio 2009 16:30 (30 minuti)

Autore principale: STAGIRA, Salvatore (National Lab. for Ultrafast and Ultraintense Optical Science, CNR-INFM, Politecnico di Milano)

Coautore: Dr. VOZZI, Caterina (National Laboratory for Ultrafast and Ultraintense Optical Science, CNR-INFM, Department of Physics, Politecnico di Milano, Italy); Sig. FRASSETTO, Fabio (Laboratory for Ultraviolet and X-ray Optical Research, CNR-INFM, Università di Padova, Italy); Sig.na CALEGARI, Francesca (National Laboratory for Ultrafast and Ultraintense Optical Science, CNR-INFM, Department of Physics, Politecnico di Milano, Italy); Dr. SANSONE, Giuseppe (National Laboratory for Ultrafast and Ultraintense Optical Science, CNR-INFM, Department of Physics, Politecnico di Milano, Italy); Dr. POLETTO, Luca (Laboratory for Ultraviolet and X-ray Optical Research, CNR-INFM, Università di Padova, Italy); Prof. NISOLI, Mauro (National Laboratory for Ultrafast and Ultraintense Optical Science, CNR-INFM, Department of Physics, Politecnico di Milano, Italy); Prof. VILLORESI, Paolo (Laboratory for Ultraviolet and X-ray Optical Research, CNR-INFM, Università di Padova, Italy); Prof. DE SILVESTRI, Sandro (National Laboratory for Ultrafast and Ultraintense Optical Science, CNR-INFM, Department of Physics, Politecnico di Milano, Italy)

Relatore: STAGIRA, Salvatore (National Lab. for Ultrafast and Ultraintense Optical Science, CNR-INFM, Politecnico di Milano)

Classifica Sessioni: Session 6 - Attosecond Science

Classificazione della track: contribution
