

Phase-contrast imaging of nanostructures with incoherent femtosecond laser driven soft X-ray source

Thursday, 28 May 2009 10:20 (20 minutes)

Primary authors: Dr FAENOV, Anatoly (Kansai Photon Science Institute JAEA); GASILOV, Sergei (Joint Institute for High Temperatures RAS); Dr PIKUZ, Tatiana (Kansai Photon Science Institute JAEA); Dr FUKUDA, Yuji (Kansai Photon Science Institute JAEA)

Co-authors: Dr KOTAKI, Hideyuki (Kansai Photon Science Institute JAEA); Dr DAIDO, Hiroyuki (Kansai Photon Science Institute JAEA); Dr SKOBELEV, Igor (Joint Institute for High Temperatures Russian Ac. Sci.); Dr KAWASE, Keigo (Kansai Photon Science Institute JAEA); Dr KANDO, Masaki (Kansai Photon Science Institute JAEA); Dr BULANOV, Sergei (Kansai Photon Science Institute JAEA); Dr KAMESHIMA, Takashi (Kansai Photon Science Institute JAEA); Dr HOMMA, Takayuki (Kansai Photon Science Institute JAEA); Dr KAWACHI, Tetsuya (Kansai Photon Science Institute JAEA); Dr KATO, Yoshiaki (The Graduate School for the Creation of New Photonics Industries, Hamamatsu, Japan)

Presenter: GASILOV, Sergei (Joint Institute for High Temperatures RAS)

Session Classification: Session 5 - Secondary Sources, Applications and Radioprotection Issues

Track Classification: contribution
