

# Fermi Open Day

**Friday, 4 September 2015 - Friday, 4 September 2015**

**Torino**

## Scientific Programme

The meeting is organised in two main sessions.

The morning program features summaries of the main Fermi science highlights.

The afternoon session will have round table discussions focusing on two main themes, Future AstroParticle missions and Indirect Dark Matter Searches.

We will organise a short poster session across the lunch break to allow attendees to present and discuss their own work. Please contact us if you are interested in showing a poster
