

Session Program

Dec 9 - 11, 2015

SM&FT 2015 - The XVI Workshop on Statistical Mechanics and nonperturbative Field Theory

Session 6

Dipartimento di Fisica, Univ. Bari - INFN Sezione di Bari

Thu, December 10

5:00 PM

Session 6

Session | **Location:** Aula B | **Convener:** Michele Pepe

5:00 - 5:30 PM

Implications of Poincare' symmetry for thermal field theories

Speaker

Leonardo Giusti

5:30 - 6:00 PM

Duals of lattice QCD in the presence of dynamical fermions

Speaker

Oleg Borisenko

6:00 - 6:20 PM

Long Range Force and Y-Bosonic strings in Baryons

Speaker

Dr Ahmed Bakry

6:20 - 6:40 PM

On the width of the confining flux tube in the 3D U(1) lattice gauge theory

Speaker

Davide VDACCHINO

7:00 PM
