

SM&FT 2015 - The XVI Workshop on Statistical Mechanics and nonperturbative Field Theory

Friday, December 11, 2015

Session 7 - Aula B (9:00 AM - 11:00 AM)

-Conveners: Sebastiano Stramaglia

| time | [id] title | presenter |
|----------|--|--------------------------|
| 9:00 AM | [47] Turbulence on a Fractal Fourier set | LANOTTE, Alessandra S. |
| 9:20 AM | [14] Active dumbbells: from diffusion properties to aggregation phenomena | Dr MOSSA, Alessandro |
| 9:40 AM | [28] Quench Dynamics in Two-Dimensional Integrable SUSY Models | CORTES CUBERO, Axel |
| 10:00 AM | [34] Infinite order phase transitions in two-dimensional $U(N)$ and $SU(N)$ spin models. | CHELNOKOV, Volodymyr |
| 10:20 AM | [30] Hagedorn spectrum in pure Yang-Mills theories on the lattice | NADA, Alessandro |
| 10:40 AM | [3] Thermal fluctuations in a kinetic model for multicomponent fluids | Dr BELARDINELLI, Daniele |
