

A project is similar to a long journey with a car!

You analyse, plan, start, react and reach. Doing this you have to plan the journey, take care of the rules, make decisions etc.

- 1 Analyse outgoing situation
- 2 Define objectives
- 3 Plan the way you will go
- 4 Plan resources, times and costs
- 5 Analyse risks
- 6 Start implementation
- 7 Analyse status / progress
- 8 Analyse deviations
- 9 May adapt plans or objectives
- 10 Celebrate the finish / success
